TOOLS FOR SUSTAINABILITY: WORKSHOP OBJECTIVES

Subhas K. Sikdar
Director
Sustainable Technology Division
National Risk Management Research Laboratory
U.S. Environmental Protection Agency
Cincinnati, OH 45268

Categories of Tools for Sustainability

- ◆ Assessment Tools (impact, exposure, risk)
- ◆ Life Cycle Assessment for impact, cost, energy, and opportunity
- ◆ Product Design Tools (packaging, finding friendly materials)
- ◆ Process Design Tools and Guidance (process simulation / integration, green chemistry expert system)
- ◆ Tools for Designing Benign Materials

OBJECTIVES

- ◆ Take a Comprehensive Look at the Available Tools
- ◆ Discuss and Debate their Merits
- ◆ Identify Gaps for Tools Development
- ◆ Use the Outcome as Starting Material for the Next Workshop
